DETAILED ACTION

The preliminary amendment filed on 2/27/2002 has been entered. Claims 1-669 have been canceled. Newly added claims 670-675 are presented for examination.

It is noted that the original set of claims is missing claim 270. Thus, claims 1-669 have been renumbered as claims 1-668. Accordingly, newly added claims 670-675 have been renumbered and referred to as claims 669-674.

Allowable Subject Matter

Claims 668-674 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to disclose the claimed programmable data element queuing, handling, processing and linking device comprising:

- a first data element input unit;
- a second data element input unit;
- a programmable data element tracking and linking module for linking;
- and having the functions and characteristics as recited in claim 669.
